DIARY NOTES

25X1A

ADD/A (Colonel White [REDACTED])

27 March 1952

1. Talked with [REDACTED] about his request for copies of Weekly Reports and Diaries from ADD/A and ADD/A (S) and told him that I would be perfectly happy to have him look at these in my office if he wanted to but that I would consider it a bad precedent to start distributing these to Chiefs of Administrative Offices; he thoroughly understands.

2. Talked with Charlie Hulick about arranging cover for [REDACTED]. He, in turn, talked with [REDACTED]. Apparently, cover has not been worked out but they expect to have it lined up in a day or two. In the meantime, we are going ahead with travel arrangements, all of which are proceeding satisfactorily.

3. I signed a personnel action transferring [REDACTED] to [REDACTED]

4. Dr. Tietjen reports that he has had a most satisfactory conference with the United States Public Health Service with reference to assistance to be rendered to CIA. They are anxious to cooperate with us in every respect.

5. [REDACTED] reports that PBS has now agreed to install a sprinkler system in the wing of Quarters "I" in which TSS documents and records are stored. The cabinets in which the documents are stored are not waterproof but they are so constructed that water coming from above will be deflected and not go into the drawers. John believes that they will be reasonably safe from destruction from water. This seems to be the best solution we can reach in our present building.
